#### HEDGEYE ASSET ALLOCATION

September 9, 2016

# YIELDS 2 OIL 3 VOLUME

# YIELDS

Post yesterday's Oil pop, broad based pop on the long-end of the curves, globally, with 10YR JGB and Bund yields in a dead heat at -0.02% - isn't that riveting? If the Fed raises rates on "inflation" (and ignores the #GrowthSlowing data), they'll crash oil and commodities again anyway. Big buying opportunity in long-term bonds this morning.

reflation) inasmuch as we don't want to chase it at the top-end of the

range.

# VOLUME

Big U.S. Equity Volume day yesterday (+21% vs. the 1 month average) – why? It was a down day. Volume comes back on the down days but S&P 500 still looks rangebound in the 2166-2190 risk range to me. If math changes on that, we will.
