USD

RATES

USD

Good **#StrongDollar**, Strong America morning to all of you who are paid in U.S. Dollars – your purchasing power is going up again today; USD Up, Euro Down (EuroStoxx50 +1.4%), Yen Down (Nikkei +1.4%).

RATES

Yet another head-fake to have capitalized on with the US 10YR Yield now +10bps from her lows of late last week; +3bps this morning to +2.42% with immediate-term upside to +2.52% after U.S. growth *#accelerating* data in Durable Goods, Chicago PMI, and Consumer Confidence (ramping to 114.8 FEB vs. 111.6 JAN now higher than Bush and Obama's highest levels).

COPPER

The Doctor evidently liked the speech! Copper is up +1.8% this morning and, like U.S. Equities, is looking to make new highs, the "reflation" trade underperformed in FEB, so this kicks MAR off right on bullish footing.
